SENDGRID ACCOUNT CREATION:

The screenshot displays the Twilio SendGrid dashboard for a user named 'mani bharathi'. The left sidebar contains navigation links for Dashboard, Email API, Marketing, Design Library, Stats, Activity, Suppressions, Settings, and Twilio SMS. The main content area features a welcome message and a 'Send your first emails with Twilio SendGrid' banner. Below this, the 'Create a sender identity' section explains the process and provides two options: 'Create a Single Sender' (highlighted in blue) and 'Authenticate a domain instead'. A diagram illustrates the sender identity structure: 'Your Business' (name) and '<jane.doe@your_business.com>' (email address). A 'Send your first email' section at the bottom prompts the user to create a sender identity before sending.

Welcome, mani!

To get up and running quickly, please follow the steps outlined below.

Send your first emails with Twilio SendGrid

Create a sender identity

Before sending email, you'll need to create a sender identity. There are [two ways](#) to do this, but we recommend creating a Single Sender to get set up quickly and test your email integration.
